

My house in Ralph may look ordinary, but it has so much character. It is on top of the hill and we have 40 acres. My house is covered with woods all around it so you do not have to drive somewhere to go hunting, you can just walk out your back door. I love to just go run through them as fast as you can trying not to get spider webs in your face and I love running up my tree stand and then enjoying the pretty view. It is magnificent to sit on my back porch and watch the deer and turkey pass by. Four wheelers are a great thing to have if you live where I do. When I'm bored I'll hop on one and ride like the wind anywhere the 40 acres will take me. The hill that I live on is so high that I can see all of Yellville. It's fun turning close to dark watching all the lights start popping up right before your eyes.

When your watching the town glow before your eyes you'll find out pretty soon where the roads are you will see cars headlights. Sometimes I will go sleep on our trampoline I'll watch the stars and gradually fall asleep from the shining night. While I'm feeling down or happy I turn to my animals Pettie and Magey are two mules. Pettie is very honrey Magey is a very big mule she is a very good mule they both are very playful and friendly. Bingo is our dog. We have basically grown up together she is a very fat dog and can cheer anybody up at any time. We have a cat named Henry we call him a mountain lion because when he stretches out he is very tall. If you've ever heard the saying theres no place like home its true for me. Because remember what all I get to come home to except family. It wouldnt be home if they werent there.
