17. LIFELINE ASSISTANCE PROGRAM

17.4 QUALIFICATIONS

17.4.1 General

17.4.1.1 To qualify for Lifeline service, applicants must be participants in certain governmental programs or qualify through a low income threshold.

17.4.2 Qualification through Governmental Program Participation

17.4.2.1 To qualify for Lifeline service through governmental program participation, applicants must participate in at least one (1) of the following governmental programs:

1. Medicaid
2. Food Stamps
3. Supplemental Security Income (SSI)
4. Federal Public Housing Assistance Program
5. National School Lunch Program's Free Lunch Program
6. Low Income Home Energy Assistance Program

(RT)
(RT)

17.4.3 Qualification through Low Income Eligibility

17.4.3.1 To qualify through low income eligibility, the applicant's income as defined in Sec. 54.400(f) must be at or below 135% of The federal poverty guidelines.

17. LIFELINE ASSISTANCE PROGRAM

17.5 CERTIFICATION

17.5.1 General

17.5.1.1 Applicants for Lifeline must meet the eligibility guidelines. A certification process shall be used to ensure only eligible applicants receive Lifeline service. Each applicant must certify that they are receiving support for only one line per household. (AT)

17.5.2 Certification of Eligibility Through Low Income Qualification

17.5.2.1 This ETC intends to participate in the ALIVE Board program established by the Arkansas General Assembly in 2005 through Act 2289 of 2005 to provide a governmentally maintained income qualification certification process that includes self-certification by applicants, under penalty of perjury, that the documentation presented by the applicant accurately represents their annual household income and provides the number of individuals in the household. Per F.C.C. order, each subscriber must provide certain certifications when enrolling in the Lifeline Program. New Lifeline subscribers must provide documentation of program-based eligibility, which the Telephone Company enrolling the subscriber should review, but not retain. Should the subscriber attempt to certify based on income, the Telephone Company shall be provided supporting documentation in order to complete the certification. The certifying document shall also include the requirement that the consumer will notify this ETC if the consumer's income exceeds 135% of the Federal Poverty Guidelines. The ALIVE Board program shall provide this ETC with a copy of the above referenced procedures. This ETC shall review the procedures to ensure the procedures are appropriate to certify and document income based eligibility for Lifeline enrollment. (CT)

17. LIFELINE ASSISTANCE PROGRAM

(RT) (CT)

17.5.2.2 This ETC shall monitor the ALIVE Board to ensure the ALIVE Board establishes appropriate procedures and provides this ETC with a copy of such procedures. This ETC shall review the procedures to ensure the procedures are appropriate to certify and document income based eligibility for Lifeline enrollment. An officer of this ETC shall certify at time of enrollment, under penalty of perjury, to the best of the officer's knowledge, that this ETC has procedures in place to review documentation via the ALIVE Board, and that the ETC, via the ALIVE Board, was presented with documentation that confirms the consumer's household eligibility, in that the consumer's household income is at or below 135% of the Federal Poverty Guidelines.

17.5.3 Certification of Eligibility Through Participation in Governmental Programs

17.5.3.1 The applicant's eligibility for Lifeline service due to participation in governmental programs shall be certified by the applicant in coordination with the governmental entity providing, monitoring, or reviewing program participation. For instance, many programs may be provided by the Department of Human Services, Department of Health, and local school districts. This ETC, through the ALIVE Board of the third-party, will coordinate with the applicant and the appropriate governmental entity to ensure proper certification. This ETC shall require the third-party to establish appropriate procedures that include self-certification by applicants, under penalty of perjury, that the applicant receives benefits from the eligibility programs and identify the program or programs from which the applicant receives benefits. The certifying document shall also include the requirements that the consumer will notify this ETC if the consumer ceases to participate in the program or programs.

17.6 CONSUMER COMPLAINT RESOLUTION

17.6.1 General

17.6.1.1 The Federal Lifeline Program requires a consumer complaint resolution process. The Arkansas Public Service Commission has determined in Order No. 1 of Docket No. 05-038-U that any ETC, which maintains tariffs and is subject to the Public Service Commission's consumer complaint procedures, meet the dispute resolution requirements for Lifeline. This ETC is subject to the Public Service Commission's consumer complaint procedures to meet the dispute resolution requirements for Lifeline.

17.7 VERIFICATION OF CONTINUED ELIGIBILITY

17.7.1 General

17.7.1.1 The Lifeline program requires this ETC to annually monitor the continued (CT) eligibility of Lifeline participants by requiring each Lifeline subscriber, both existing subscribers and new subscribers, to provide annual self-certifications attesting to their continued eligibility of the program. Beginning in 2013, this Telephone Company will annually choose to either, where ETCs cannot re-certify their subscribers by accessing a database, to re-certify their Lifeline customers on an annual basis or elect to have USAC re-certify them. Also, should the Telephone Company choose to use a state of federal program database to confirm a consumer's on-going eligibility for Lifeline, the annual re-certification will not be implemented.

17.8 PROCESS FOR TERMINATION OF LIFELINE BENEFITS

17.8.1 General

17.8.1.1 A consumer's eligibility for Lifeline may be terminated due to failure to maintain qualifications for Lifeline. This ETC shall follow the required process for termination of Lifeline benefits.

17.8.2 Process

17.8.2.1 Customers will be notified of the impending termination of Lifeline benefits in a letter separate from the consumer's monthly bill.

17.8.2.2 The customer will have up to sixty (60) days from the date of the termination letter in which to demonstrate his or her continued eligibility before Lifeline support is discontinued.

17.8.2.3 A customer who appeals must present proof of continued eligibility consistent with the above Lifeline qualifications.

17.8.2.4 This ETC will terminate Lifeline services for subscribers who fail to demonstrate continued eligibility within the sixty (60) day time period.

17.9 RECORD RETENTION POLICY

17.9.1 General

17.9.1.1 The Federal Communications Commission has established specific record retention requirements for the Lifeline certification process. This ETC will have specific procedures to ensure its record retention policy complies with legal requirements.

17.9.1.2 This ETC, through its own recordkeeping or through the recordkeeping of the ALIVE Board and its third-party contractor on behalf of this ETC, shall maintain certification records for the period of time required by the Federal Communications Commission for all Lifeline participants.

17.9.1.3 This ETC shall retain certifications, signed by the subscriber, regarding the consumer's eligibility for Lifeline, including self-certifications, that income documentation accurately reflects the house hold income. This certification shall be retained at least as long as the consumer receives Lifeline service from this ETC or until this ETC is audited by the Administrator. This ETC shall maintain certifications for subscribers terminating Lifeline service for at least three (3) years after termination. Such records shall be maintained in compliance with all federal and Public Service Commission requirements and such records shall be provided to the Administrator or the Public Service Commission upon proper request.

Title: RULES AND REGULATIONS FOR UNDERGROUND SERVICE

PSC File Mark Only

- 2. RULES AND REGULATIONS FOR UNDERGROUND SERVICE
 - 2.1. For the purposes of this rule only, the following terms have the meanings indicated for them:
 - 2.1.1. Development - Five or more adjoining unoccupied lots in a recorded plan for the construction of single-family residences (detached or otherwise) intended for year-around occupancy, or one or more adjoining lots for the construction of one or more apartment houses containing an aggregate of five or more family units, if telephone service to such residential or apartment house lots necessitates extending the company's existing distribution lines.
 - 2.1.2. Distribution Line - A main line facility within the development directly or indirectly connecting the customers in a development to the telephone central office.
 - 2.1.3. Service Line - A line from the distribution line to the customer's residence.
 - 2.1.4. Mobile Home Park - A facility designed for the parking of at least five (5) mobile homes.
 - 2.2. All distribution and service lines installed underground, shall conform to the company's construction standards and shall be owned and maintained by the company. Such installation shall be performed by the company or by such other entity as the company may authorize to do the work.
 - 2.3. The applicant for underground telephone service to a development or a lot therein shall:
 - 2.3.1. At his own cost, provide the company with easements satisfactory to the company for installation, maintenance, alteration, replacement and repair of distribution and service lines and related facilities.
 - 2.3.2. At his own cost, clear the ground, in which the aforesaid facilities are to be installed, of trees, stumps and other obstructions, provide a trench for such

facilities according to telephone company specifications and backfill to rough grade. It is understood that the telephone facilities may be installed in the same trench as facilities to be installed for the purpose of providing electric service to the development, if installed in accordance with the National Electric Safety Code as from time to time amended, unless, in the judgment of the company such joint installation would be dangerous or impractical because of lack of cooperation with the power company or other reasons beyond the control of the company.

- 2.3.3. Request installation of the facilities at such time that the aforesaid facilities may be installed before curbs, pavements and sidewalks are installed; keep the trenches in which the facilities are to be installed, or the path to be utilized for installation of underground facilities by "plowing in" (as distinguished from "trenching"), clear of machinery and other obstructions during the installation and will otherwise cooperate with the company to avoid unnecessary costs.
- 2.3.4. Deposit with the company, prior to the commencement of the installation of the facilities referred to above, an amount equal to the company's estimated costs of installing the facilities within the development. Such deposit is conditioned upon the agreement of the company to refund; semi-annually, to the applicant for each customer located within the development, receiving telephone service from the company within the period of five (5) years from the date of installation of facilities that percentage of the total deposit that each lot bears to the total number of lots in the development. All sums not refunded within the five (5) year period shall become the property of the company.
- 2.3.5. If after the acceptance of application for service the design of the development is changed in a manner which required recomputation of the company's estimated installation costs, or the estimated cost of installation are increased for any other reason not the fault of the company, the deposit referred to above may be increased and the company may defer or discontinue installation of facilities until such time as the additional amount of the deposit has been received by the company.

- 2.3.6. Reimburse the company for damage to, or destruction or removal of, underground facilities within the development, during the period of development, by persons, firms or corporations other than the company or its' agents, employees or contractors.
- 2.4. The above provisions shall apply to underground service for mobile home parks.
- 2.5. At the expense of the applicant, underground service will be provided on a temporary basis during the construction of residential or commercial properties. If all or part of the facilities are utilized in providing service to the residence or commercial property, an adjustment of cost will be made.
- 2.6. If a customer or customers request the removal and replacement of existing overhead facilities with underground facilities, such replacement will be done at the expense of the customer or customers.
- 2.7. Underground service connections to new individual residences, new mobile homes and new apartments containing less than five (5) family units, from existing overhead facilities will be provided at the request of the customer, if the customer pays to the company a sum equal to the difference between the estimated cost of the overhead facilities and the estimated cost of underground facilities, and provides to the company easements adequate for the installation, maintenance, alteration, replacement or repair of distribution and service lines and related facilities.
- 2.8. Underground service to shopping centers and other commercial developments will be provided on the same basis as underground service to residential developments as hereinabove set out.

FILED

PSC File Mark Only

3. EXTENDED ABSENCE PAYMENT PLAN

3.1. The following options are available to customers to avoid suspension of service during extended absences.

3.1.1. Bills coming due during the customer's absence may be paid in advance. The amount of the advance payment will be based on the customer's average monthly bill for the most recent 12 months. If less than 12 months usage history is available, the advance payment will be based on the number of months of usage history available. If the advance payment is more than the actual bill for service, the overpayment will be credited to the customer's account unless the customer requests a refund. If the advance payment is less than the actual bill for service, the balance due will be carried forward each month until the customer returns. Delayed payment agreements will be available for any underpayment.

3.1.2. The customer will be given the opportunity to enroll in the Company's Bank Draw Draft Plan whereby the monthly service bill will be paid automatically through the customer's checking or savings account.

3.1.3. The customer can arrange to have bills coming due during the period of the absence mailed to an alternate address or third party during the absence.

3.2. The customer must notify the Company in order to take advantage of any of these extended absence payment plans.

Part IV. Policy Schedule No.: 4

Title: EXTENDED DUE DATE PLAN

AUG 14 9 37 AM '95

FILED

PSC File Mark Only

4. EXTENDED DUE DATE PLAN

4.1. GENERAL

4.1.1. The Extended Due Date Plan is available to qualifying residential customers and is intended to enable the company to change a customer's bill payment due date, at the customer's request, to coincide with or follow the customer's receipt of a fixed income as listed below. Customers who qualify under this plan and pay by the new date will not be considered late on their bill payment.

4.2. AVAILABILITY

4.2.1. Customers whose income checks from any of the sources listed below are not normally received by the regular bill due date are eligible to apply for an extended due date. Qualifying income sources are as follows:

- A. persons receiving Aid to Families with Dependent Children (AFDC), or Aid to the Aged, Blind and Disabled (AABD);
- B. persons receiving Supplemental Security Income; or,
- C. persons whose primary source of income is Social Security or Veterans Administration disability or retirement benefits.

4.3. APPLICATION

4.3.1. Customers shall become plan participants upon either written or verbal application to the Company. Participation will continue each month thereafter, regardless of account location, as long as the customer's account remains active. Verification of income being received by the customer may be required.

Part IV. Policy Schedule No.: 4

Title: EXTENDED DUE DATE PLAN

AUG 14 9 37 AM '95

FILED

PSC File Mark Only

4.4. SETTING THE EXTENDED DUE DATE

4.4.1. During the billing procedure each month, the Company billing system will compare the check receipt date supplied by the customer with the billing date and the bill due date. Based on this comparison, the following method of determining a bill due date will be used:

- A. If the check receipt date occurs within the time span between the billing date and the bill due date, the normal bill due date of the account remains in effect.
- B. If the check receipt date occurs beyond the time span of the billing date and the bill due date, the due date will be at least three days after the check receipt date and only the extended due date will appear on the customer's bill.

4.4.2. If the customer does not pay bills by the close of business on the extended due date 2 times in a row or any 3 times in the last 12 months, the Company will remove the customer from the plan. The Company will notify the customer in writing when the customer has been removed from the plan for late payment.

4.4.3. The Company will not impose a late payment charge on plan participants who do not pay by the extended due date.

4.4.4. If payments are not received by the close of business on the extended due date, the Company will follow the established notification process established by the Arkansas Public Service Commission which could ultimately result in suspension of service.

7. OBLIGATIONS OF THE COMPANY

7.1. Furnishing of Service

The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment, up to and including the point of demarcation.

7.2. Maintenance and Repairs

7.2.1. All facilities owned by the Company up to and including the point of demarcation, will be maintained by it, except where such facilities are situated, in the judgement of the Company, in hazardous or inaccessible locations.

7.2.2. The Company will be reimbursed for any loss or damage to its facilities on the customer's premises resulting from intentional destruction or any other cause, except from fire or unavoidable accidents.

7.2.3. The customer shall provide employees and agents of the Company access to Company facilities at all reasonable times.

7.2.4. If the problem is on the customer's side of the demarcation point, the customer shall be notified.

A. The Company will inform the customer that if the Company is requested to diagnose and repair the problem, charges incurred are not regulated by the Arkansas Public Service Commission, or that the customer shall assume full responsibility for having the problem diagnosed and repaired.
